

## Reset the BlackBerry Smart Card Reader:

1. On the BlackBerry Smart Card Reader, turn the Bluetooth® radio off.
2. Press and **hold** the **Action** button. **rEsetInG** or **Resetting** appears on the screen.
3. The BlackBerry Smart Card Reader will reset.

## Pair the BlackBerry Smart Card Reader with the BlackBerry Smartphone:

To enable Bluetooth connectivity, complete the following steps:

1. On the BlackBerry Smartphone, select **Options > Bluetooth**.
2. Press the **Menu** key and select **Enable Bluetooth**.

If using the BlackBerry Smart Card Reader 1.5, complete the following steps:

1. On the BlackBerry Smart Card Reader, press the **Action** key.
2. On the BlackBerry Smartphone, press the **Menu** key.
3. Select **Add Device**.
4. Select **BlackBerry Smart Card Reader**.
5. In the passkey field, type the Bluetooth pairing key that is displayed on the BlackBerry Smart Card Reader screen and press the **Enter** key.
6. Select **Options > Security Options > Smart Card**.
7. In the **Registered Reader Drivers** section, select **BlackBerry > Driver Settings**.

8. Press **Menu** and select **Connect**.
9. Select **Smart Card Reader**.
10. On the BlackBerry Smart Card Reader, press the **Action** key.
11. On the BlackBerry Smartphone, type the secure pairing key that is displayed on the BlackBerry Smart Card Reader screen and press the **Enter** key.
12. Perform one of the following actions:
  - If a connection password is not set, in the **Connection Password** field, type a connection password. Retype the connection password in the **Confirm Connection Password** field.
  - If connection password is already set, type the connection password in the **Connection Password** field.
13. Select **OK**.

**If using the BlackBerry Smart Card Reader 2.0, complete the following steps:**

1. On the BlackBerry Smartphone, select **Options > Security Options > Smart Card**.
2. In the **Registered Reader Drivers** section, select **BlackBerry**.
3. Press the **Menu** key.
4. Select **Connect**.
5. On the BlackBerry Smart Card Reader, press the **Action** key.
6. On the BlackBerry Smartphone, type the Reader ID that appears on the BlackBerry Smart Card Reader screen and press the **Enter** key.
7. On the BlackBerry Smart Card Reader, press the **Action** key.
8. On the BlackBerry Smartphone, type the Bluetooth pairing key that appears on the BlackBerry Smart Card Reader screen and press the **Enter** key.
9. On the BlackBerry Smart Card Reader, press the **Action** key.
10. On the BlackBerry Smartphone, type the secure pairing key that appears on the BlackBerry Smart Card Reader screen and press the **Enter** key.
11. Perform one of the following actions:
  - If a connection password is not set, in the **Connection Password** field, type a connection password. Retype the connection password in the **Confirm Connection Password** field.
  - If a connection password is already set, type the connection password in the **Connection Password** field.
12. Select **OK**.
